# The new Access Points App
Getting you safely from A to B

NetworkRail

Step 1: Search

Keeping you safe is our number one priority – and the new Access Point app can help.

Get an easy view of all access points near you, or use custom search.

You can even download a region's data for use on the go, without signal.

Step 2: Get easy directions

Get clear in-app directions that keep you out of harm's way.

You can also link to Google or Apple Maps on your smartphone.

Working on the railway?

Use the Access Points app.

Search 'Access Points' today and look out for this app icon

Download on the **App Store**
