

Vauxhall Combo VTS Terminal Location

Date: 01/02/2017

This document has been created to provide employees with information on the most appropriate location for VTS placement on the above vehicle type.

The position of the terminal has been agreed between Network Rail and Traffilog to ensure driver and passenger safety and installers must fit terminals to this specification.

Fig 1

Fig 2

Position 1 X

Position 2 X

Position 3 ✓

- X Airbag deployment area
- X Passenger accident impact zone
- X Covers radio controls & screen
- X Covers central vent
- X Long reach for driver
