Supplier Contact	High Motive: dect@highmotive.co.uk 029 2023 4691 Sitelink: dect@sitelink.co.uk 0845 307 2027
Category Gatekeeper	Please refer to Category Directory
Overview	Contracts are in place for the purchase of throat microphones and accessories for use with DECT-COM II equipment utilised during On Track Plant activities. Items are as follows: Throat Mic J-TTM03/NP2/NB Snap on Acoustic tube earpiece Open Ear Buds
How do I Buy?	iProcurement catalogue Once you have identified your requirement please log into iProcurement and search for the catalogue items you require under ' Operational Supplies ' and ' Throat Mic '. This should then list throat mics; snap on acoustic tube earpiece; and ear buds.
When will the goods be delivered?	The delivery time shall not exceed 20 days following the receipt of the Purchase Order.
I have found an item from another supplier at a cheaper price, can I buy this instead?	All items within the catalogue meet Network Rail's specification which includes Warranty, Ergonomic and Environmental considerations. Having an approved catalogue in place will enforce Network Rail's desire to provide a consistent, safe and good quality working environments for all employees regardless of their role within the organisation. Although you may be able to find cheaper options with alternative suppliers it may result in false economy as the products are likely to be less resilient and therefore require more frequent replacement. Also, the cheaper product may not provide the right ergonomic solution and therefore may result in staff related health problems.
I submitted my requisition over 48 hours ago and it has not yet been approved?	Please login into iProcurement to check the approval history of your requisition. From this you will be able to ascertain who the requisition is with. It is at your discretion as to whether you contact them to establish any possible reason for delay.
My requisition has been fully approved and has not been allocated a purchase order number?	Please contact the Procurement Service Centre for assistance.
The supplier hasn't received my purchase order!	Please contact the Procurement Service Centre for assistance.
Where can I get assistance in setting up the microphone to the DECT-COM II equipment?	A contract is in place for Upgrade, Programme, Repair, Maintain or Hire of DECT-COM II units, with Site Link and High Motive. A complete description of the services and prices can be found in the contract on CCMS2, document reference: 63974611 for Site Link or 63974646 High Motive.

For any other details on throat microphones or DECT-COM II equipment please contact: John Sidebotham John.Sidebotham@networkrail.co.uk
