

HEALTH & SAFETY BY DESIGN RELATED INDUSTRY GROUPS

v7 : 29 July 2021

National

Building & Civils, Health & Safety by Design Working Group

Purpose: Network Rail working collaboratively with designers and contractors to embed safety into construction and infrastructure operation through improvements at the design stage.

Key Activities: Continued development of guidance, tools, lessons learned and good practice, concentrating on design and execution of permanent works and temporary works.

Engagement: 2 / 3 Forum meetings per year
Key contacts: Steve Williams (Network Rail) & Andy Barnes (Arcadis)

Building & Civils, Health & Safety by Design Developing Engineers Forum

Purpose: To share best practice examples across the industry with our developing engineer community.

Key Activities: Developing best practice and lessons learnt that feed into the B&C group (Forums include typically 20 to 40 attendees from across the industry).

Engagement: Quarterly Meetings
Key contacts: Steve Rowley (SYSTRA), James Featherstone (Network Rail) & Faraz Siddiqui (TGP)

Scotland Rail Consultants Forum

Purpose: Network Rail Scotland and a group of Engineering Consultants have come together to provide industry collaboration and foresight, sharing best practice and innovation and a collective aim to influence projects at the right stage to achieve a more efficient delivery.

Engagement: Fortnightly meetings sharing best practice and addressing our key topics this year; PACE, Decarb Unit Rate Delivery, Challenges to Standards and Asset Management.

Key contacts: Keith Prentice (Atkins), Gregor Bell (Arcadis), Iain McFarlane (Network Rail) & Scott Wardrop (Network Rail)

North West, Central & Eastern SHELTS Better By Design

Purpose: A working group of NR NW & Central SHELTS the aim is to promote a positive culture throughout the design process that focuses on integrating activities and learning to have a meaningful and direct impact on health, workplace safety and sustainability.

Key Activities:

- Understanding & Mapping Industry Groups
- Designer – Contractor Handshake
- Exploring Ideas from Outside Rail
- Accidents / Incidents / Design Close calls Learning

Engagement: Fortnightly meetings

Key contacts: Andy Belcham (Arup), Dan Mayhew (WSP) & John Oldridge (SYSTRA)

Wales & Western SHELTS

Purpose: To share best practice, lessons learnt, and agree strategic implementation of health, safety, environment arrangements.

Engagement: Meets quarterly throughout the year and is supported by the Safety and Sustainability Forums running concurrently between meetings.

Key contacts: Suzanne Kay (Network Rail)

Southern Shield - Design Safety Leadership Team (DSLTS)

Purpose: How better design can improve safety and prevent incidents and accidents working with Tier 1 contractors and consultants.

Key Activities: Design Close Call's, Constructability, Hazard ID and Management (inc CSM), PCIP's, OCRA (design check process).

Engagement: Six weekly meeting

Key contacts: Paul Futter (Network Rail), Kobi Mustafa (Network Rail) & Richard Grubb (Network Rail Design Delivery)
