# Forms Update 13<sup>th</sup> March 2026

This update contains two updated forms:

- The Approved Live Working Tasks list, documented in ELP/SAI25/Cat E, is now at issue 2B.
- The Electrical Safe System of Work (ESSoW) – Category L: List of approved Low Electrical Risk work activities, documented in ELP/SAI25/Cat L, is now at issue 2B.

All other SAI25 forms are unchanged.

Form updates of SAI25 will continue to be controlled and published via Safety Central.

Forms **shall not be modified locally** and only those published via Safety Central are to be used when working to the requirements of NR/L3/ELP/SAI25.

For full details relating to the standard and modules, please visit the Standards and Controls website.

# ELP/SAI25 Forms Update 13<sup>th</sup> March 2026

Form Reference	Updated	Issue	Publication Date	Title	Description of Change

All other SAI25 forms are unchanged.

# Forms

All NR/L3/ELP/SAI25 forms have been relocated from the Standards and Controls website and onto the Safety Central website.

Version control is now via a numeric/alpha format (Issue 1A / 1B etc.)

- This action has been taken to ensure a more flexible route to form updates whilst we are in early deployment stages.
- Once early deployment has been concluded and DRACAS items addressed, all forms will be made available on the Standards and Controls website again.

Form reference number	Issue	Description of form	Status	
NR/L3/ELP/SAI25/AE	1	Blocking of Lines for Electric Traction Purposes		<a href="#">Download</a>
NR/L3/ELP/SAI25/AS	1	Blocking of Lines for Electric Traction Purposes		<a href="#">Download</a>
