**No: NRS 286**

## **Network Rail Safety Bulletin**

### **Suspension from use**

# **SRS Road Rail Vehicles fitted with MEWP modules**

**For the attention of; Project managers, Principal Contractors, site supervisors, Machine & Crane Controllers, OTP operators and In Possession Plant Operators (Network Rail Licence holders) and OTP owners.**

#### **Background:**

Following a recent incident in Sweden when the telescopic boom on a SRS MEWP module failed during routine OLE works, it is necessary to suspend from use all SRS Road Rail Vehicles that are fitted with MEWP modules.

#### **Action Required:**

**SRS Road Rail Vehicles that are fitted with MEWP modules are not to be used until they have undergone a statutory inspection and the results of these inspections have been verified by Network Rail.**

**The details of all vehicles affected by this bulletin have been placed on Network Rail's 'Do Not Use List' on Safety Central.**
