

There were **3942** events involving youths and children (under 18s) during 2020/21, two of these were fatalities. This is a 10% increase compared to last year.

60%

of people are not aware that railway tracks carry electricity at all times.

The number of adult trespass events fell by **2%** in comparison to 2019/20 levels.

Electrified overhead line equipment carries

25,000 volts

of electricity – that's **100 times** the power supplied to your home.

The third rail carries

750 volts,

which is more than enough to kill. If people touch it, they stick to it like glue. Never try and pull people off the third rail – **always call 999**.

The heat generated by an electric shock from high voltage wires is in excess of

3,000 °C –

hot enough to ignite a victim's clothing.

Everyone loses when you step on the track

You vs. Train
